Job Description

Key Responsibilities

- Provide clear, accurate, and timely interpretation between Japanese expatriates and Thai QA & Production staff during daily operations, meetings, and on-site activities
- Support Quality Assurance and Production processes through document review, checking, and clarification
- Accurately enter, manage, and verify numerical and operational data using PC-based systems
- Review and confirm QA results, production reports, and related documentation to ensure consistency, accuracy, and reliability
- Act as an effective communication bridge to facilitate smooth coordination and understanding across departments
- Support managers and team members in resolving communication gaps and ensuring alignment with quality standards and production requirements

•

Qualifications & Skills

- Bachelor's degree in any field
- Japanese language proficiency at N2 level or above
- Experience working in a Japanese manufacturing company is highly preferred
- Strong interpersonal skills with a confident, professional, and cooperative personality
- Ability to interpret clearly, accurately, and confidently in operational and factory environments
- Well-organized, reliable, and able to handle multiple tasks in a fast-paced working environment
