Job Description

We are seeking a skilled professional to join a leading Technology & Telecoms organization in Tokyo. This role focuses on leveraging your technical expertise to support innovative solutions and contribute to the success of cutting-edge projects.

Client Details

An organisation driving innovative service development in the digital space.

By combining project management expertise with technology, it delivers sustainable growth and operational transformation.

Description

- Manage the full lifecycle of software development projects (plan, execute, monitor, close)
- Develop and control project budgets
- Drive development processes (SDLC and Agile)

- Communicate and coordinate with stakeholders
- Utilise project management tools (e.g. Jira)
- Lead process improvement and productivity initiatives
- Demonstrate strong team leadership

Job Offer

- Opportunity to develop expertise in both project and financial management
- A role with autonomy to contribute to organisational improvement
- Exposure to diverse projects and career development opportunities
- Work in a supportive and innovative environment in Tokyo.
- Working hours: 9:00 AM - 5:30 PM
- Remote work available
- Free meals at the in-house cafeteria

If you are ready to take on the challenge of a Project Manager role in Tokyo, apply today and become part of a forward-thinking team.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Krisztina Szokolai on +81366276101.

Required Skills

- 4+ years of software development project management experience
- Knowledge and hands-on experience with SDLC and Agile methodologies
- Experience managing budgets and running projects from a financial perspective
- Strong communication skills (Japanese and English)
- Leadership and team management capabilities
- Experience with project management tools (Jira, Confluence)
- Experience with Agile methodologies (e.g. Scrum) and process improvement is a plus

Company Description

An organisation driving innovative service development in the digital space.
By combining project management expertise with technology, it delivers sustainable growth and operational transformation.
