Job Description

As a **Salesforce Agentforce Consultant**, you will design and implement AI-powered service solutions leveraging Salesforce Agentforce, Service Cloud, and Einstein AI. You will help enterprises enhance agent productivity and customer experience through intelligent automation and responsible AI.

Your Key Responsibilities

- Design and configure **Salesforce Agentforce and Service Cloud** solutions for service and contact center use cases
- Collaborate with client stakeholders to define agent workflows, automation, and AI-driven enhancements
- Configure Service Cloud capabilities such as:
 - Case Management
 - Omni-Channel
 - Knowledge

- Salesforce Flows
- Implement and optimize AI-assisted agent features including:
 - Case and conversation summarization
 - Recommended responses
 - Productivity enhancements
- Work closely with Infosys architects, developers, and integration teams to ensure scalable and secure solutions
- Support testing, deployment, and post go-live hyper-care activities
- Maintain configuration documentation and ensure compliance with **responsible AI and data governance standards**
- Contribute to reusable assets, accelerators, and best practices within the Infosys Salesforce Practice

Required Qualifications

- 5+ years of experience in **Salesforce Service Cloud implementations**
- Hands-on experience or strong exposure to **Salesforce Agentforce / Einstein AI**
- Strong understanding of contact center operations and customer service workflows
- Experience delivering solutions in **Agile or SAFe environments**
- Strong communication skills to articulate AI and automation concepts to business users
- Bilingual - English and Japanese

Preferred Qualifications

- Salesforce Service Cloud Consultant certification
- Experience with chatbots, virtual agents, or conversational AI platforms
- Exposure to Salesforce Data Cloud integrations
