An international manufacturing company is seeking a Factory Cost Accountant to support plant finance and cost accounting operations in Japan. This role offers the opportunity to work closely with local and regional teams to support operational efficiency, financial reporting, and manufacturing cost analysis within a global business environment. Flexible working arrangements and competitive compensation are available.

Key Responsibilities

- Monitor and analyze manufacturing and operational costs
- Support standard costing processes for materials, labor, and overhead allocation
- Manage inventory and cost of goods sold accounting activities during monthly closing
- Analyze production variances and prepare financial reports
- Conduct inventory reconciliation and support internal control activities
- Assist with preparation of reports for internal and external stakeholders
- Collaborate with production, supply chain, and finance teams on cost improvement initiatives
- Coordinate with auditors and external advisors on accounting-related matters
- Support continuous improvement of accounting and reporting processes

Qualifications

- Practical experience in cost accounting within manufacturing environments
- Business-level English and native-level Japanese communication skills
- Knowledge of standard costing, variance analysis, and inventory accounting
- Strong Microsoft Excel skills including pivot tables and advanced functions
- Understanding of accounting standards related to inventory and cost accounting
- Strong analytical and problem-solving skills
- Experience with ERP systems is preferred
- Business-level Chinese proficiency is a plus
- Experience in multinational or manufacturing companies is preferred
