Job Description

Job Title

Business Application Support Engineer

Position Overview

A global entertainment company is seeking an Application Support Engineer to support business-critical applications and end-user IT operations in a hybrid international environment.

This role involves supporting Microsoft Dynamics 365, ticketing systems, and related business applications while collaborating with both local and global stakeholders.

The ideal candidate will have hands-on IT support experience, strong communication skills, and an interest in working within an international business environment.

Responsibilities

- Provide Level 1 / Level 2 support for business applications
- Support Microsoft Dynamics 365 and related systems
- Handle incidents, service requests, and troubleshooting
- Coordinate with vendors and internal stakeholders
- Support desktop and end-user IT operations
- Maintain documentation and operational procedures
- Collaborate with regional and global IT teams
- Participate in continuous service improvement initiatives

Required Skills

Requirements

- 3+ years of IT support or application support experience
- Experience supporting end-users in corporate environments
- Knowledge of Microsoft technologies and business applications
- Strong communication and coordination skills
- Business-level Japanese
- Conversational English

Preferred Skills

- Experience with Microsoft Dynamics 365
- Experience in retail, entertainment, or customer-facing industries
- Desktop support or service desk experience
- Experience working in global environments

Working Environment

- Hybrid work environment
- International team collaboration
- Long-term project opportunity
- Opportunity to use English in daily operations
