Job Description

«Job Description & Position Highlights»

- Field service operations involving troubleshooting and maintenance support for vacuum valves
- Contribute on the front lines to solving issues with critical products that support semiconductor manufacturing
- Grow professionally by being involved in the entire process, from customer support to root cause analysis and improvement proposals
- An environment where you can hone your advanced technical skills while collaborating with global offices

【Job Responsibilities】

The Field Service Engineer (FSE) is the front line to help customer to use VAT products with higher efficiency by fixing the troubles occurring at the customer sites and providing solutions for the customers. FSE needs to obtain the satisfaction from customers by executing field support functions (remote diagnosis, on-site trouble shooting, follow-ups after the troubleshooting, customer complaint handling and replying questions from customers). FSE also needs to work closely with

application team and sales team to understand the customer's requirements and situations better.

< Duties & Responsibilities >

- Perform remote diagnosis to fix the trouble remotely if it is possible.
- Perform on-site support to fix troubles when the remote troubleshooting does not work well.
- Handle spare parts properly to supply them to customers for the troubleshooting.
- Consult to VAT CH (Headquarter) or MY (production site) to obtain supports when it is necessary.
- Escalate the trouble to the management in timely manner when it is necessary.
- Perform follow-up activities (service report, trouble analysis report, 8D report) after the repair is completed.
- Prepare documents to obtain better understanding from customers.
- Offer innovative solutions to fix troubles happening at the customer site.
- Offer the service kits to customers by utilizing any chances to contact to them.
- Transfer field knowledge to account managers (sales) and support them to obtain more orders.
- Input all the activities in CRM system. Close cases immediately after the necessary work is done

< About US >

BE GREAT TOGETHER WITH US.

Innovation, Efficiency and Ambition: this is what VAT has stood for over 50 years.

With this passion, VAT has grown to become the leading international developer, manufacturer and supplier of high-performance high-end vacuum valves and vacuum sealing technology, employing over 2000 people worldwide. The headquarters are located in Haag (Switzerland), the production centers in Switzerland, Malaysia, Romania and Taiwan.
