### Job Description

**Electrical Supervisor**

**Location:** Mie Prefecture, Japan (On-site)

**About the Role**

We are seeking an experienced Electrical Supervisor to support the construction of a large-scale facility in Mie Prefecture.

This is a hands-on, site-based role responsible for supervising electrical installation activities, coordinating contractors, ensuring safety and quality standards, and resolving technical issues during construction. The successful candidate will work closely with international engineering teams and play a key role in delivering a complex industrial project.

**Key Responsibilities**

- Supervise daily electrical construction activities on-site
- Review and interpret electrical drawings, single-line diagrams, cable schedules, and schematics

- Coordinate contractors and subcontractors to ensure work is completed safely and efficiently
- Monitor installation quality and ensure compliance with project specifications
- Support electrical testing, inspections, and pre-commissioning activities
- Troubleshoot site issues and drive practical solutions
- Prepare progress reports and communicate project status to stakeholders
- Ensure compliance with electrical safety procedures, LOTO, and permit-to-work requirements

#### **Requirements**

- Minimum 5 years of experience in electrical construction or industrial facilities
- Strong site-based electrical supervision experience
- Ability to read and interpret electrical drawings and technical documentation
- Experience with cable installation, MCCs, transformers, switchgear, UPS systems, grounding, and testing activities
- Proven experience managing contractors and coordinating construction activities
- Strong problem-solving skills and a hands-on approach

#### **Preferred Background**

##### **Experience in at least one or more of the following industries:**

- Industrial Construction
- Process Plants
- Utilities
- Water Treatment
- EPC Projects
- Oil & Gas
- Manufacturing Facilities

#### **Language Requirements**

- **Business-level English required**
- Japanese is a strong advantage but not mandatory

#### **What We Offer**

- Opportunity to work on a major international construction project
- Multicultural working environment
- High level of ownership and autonomy
- Potential transition into a long-term Operations role after project completion
- Competitive compensation package

If you are a proactive, hands-on electrical professional who enjoys solving problems in the field and driving projects forward, we would love to hear from you.
