Job Description

A Global manufacturer in the automotive sector is seeking an experienced **IT Enterprise Architect (Solutions & Integration)** to lead large-scale infrastructure transformation initiatives across a global enterprise environment.

Responsibilities:

- Design enterprise architecture aligned with business strategy and organizational objectives
- Develop mid- to long-term IT architecture roadmaps
- Define scalable and sustainable enterprise architecture frameworks
- Support future-state IT operating models and modernization initiatives
- Lead enterprise system migration initiatives based on existing environments
- Drive integration of applications, services, and data platforms across multiple business functions
- Coordinate enterprise-wide data migration and interoperability programs
- Ensure architecture consistency across transformation initiatives
- Develop and maintain understanding of current and target infrastructure architecture
- Define enterprise data structures and data utilization strategies
- Build scalable platforms to support business decision-making and operational efficiency
- Support governance and standardization of enterprise data architecture
- Identify opportunities to improve IT capabilities through modern technologies
- Lead long-term evolution of enterprise IT foundations
- Evaluate emerging technologies and industry trends for enterprise adoption
- Drive continuous improvement initiatives across the IT landscape
- Support organizational transformation through strategic IT planning

Why should you apply:

- Strategic enterprise architecture role within a global automotive organization
- Opportunity to shape future-state IT architecture during a major integration and transformation phase
- High-impact position within the CIO Office collaborating with executive leadership
- Exposure to large-scale enterprise modernization, migration, and governance programs
- Flexible work environment within a globally recognized manufacturing organization

Company Details:

A large global automobile manufacturer based in Germany. This company is Japan's leading brand, known for its high customer satisfaction performance.

Working Hours: 9:00 - 18:00 (Mon-Fri)

Working Style: Hybrid

Holidays: Saturday, Sunday, and National Holidays, Year-end and New Year Holidays, Paid Holidays

Services/Benefits: Transportation expenses up to 20,000 yen per month, plus Paid leave, plus social insurance (health insurance, welfare pension, and work-related accident insurance), Periodic health examination, and Employment insurance

Required Skills

- Minimum 8 years of experience with 5+ years of experience in IT Enterprise Architecture or IT Architect Role
- Experience and Knowledge of Application, Infrastructure & Enterprise Systems
- Certifications such as TOGAF
- Cloud Platform Certification (AWS, Azure etc)
