 その後は、希望や適性に応じて機械 / 電気いずれかの担当に割り振ります。
 1年を目安に丁寧にフォローしていきます！

JOB DESCRIPTION:

You will be responsible for the maintenance and inspection of all production equipment throughout the factory. ★ During training, you will work in teams of two to three members with thorough support.

Your main duties include: • Maintenance and inspection of production equipment (press machines, cranes, robots, welding machines, machining equipment, jigs) • Creating PLC (sequencer) control programs • Teaching and parameter setting for welding robots • Fabrication, assembly, and dimensional adjustment of parts using workshop equipment

When unexpected breakdowns or repairs occur, the entire equipment team works together to ensure stable operation.

After joining the company, senior staff will provide hands-on training directly on site. Based on your preferences and aptitude, you will then be assigned to either mechanical or electrical responsibilities. We provide careful follow-up with the goal of developing your skills over the first year.
