Job Description

Lead the design and delivery of scalable, high-performance frontend systems, managing architecture decisions and overseeing the full development lifecycle from concept to release. Collaborate with and guide engineering teams to solve complex technical challenges and support end-to-end product development.

Client Details

The employer is a large organization within the Technology & Telecoms industry, recognized for its innovative approach to delivering cutting-edge digital solutions. They focus on creating impactful products and services that meet the evolving needs of their clients.

Description

- Lead the design and delivery of scalable, high-performance frontend systems, ensuring alignment with business priorities and tight timelines
- Define frontend architecture for high-traffic web applications, making decisions focused on scalability, maintainability,

and long-term growth
- Own the full development lifecycle, including design, development, testing, and release of new and existing backend features
- Mentor and guide engineering teams, resolving complex technical challenges, with added strength from 6+ years of frontend experience

Job Offer

- One day of remote work per week for added flexibility.
- Complimentary office lunches provided.
- Engaging projects within a large organization, fostering professional growth.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

Required Skills

- Proven experience in frontend development and architecture for high-traffic, scalable web systems
- Strong decision-making skills with a focus on scalability, maintainability, and long-term technical strategy
- Hands-on expertise across the full development lifecycle, with the ability to deliver under tight deadlines
- Solid frontend background (6+ years), enabling effective collaboration and a holistic approach to full-stack development
- AI experience (Claude code, MCP server, etc)

Company Description

The employer is a large organization within the Technology & Telecoms industry, recognized for its innovative approach to delivering cutting-edge digital solutions. They focus on creating impactful products and services that meet the evolving needs of their clients.
