### Job Description

An international manufacturing company is looking for a Procurement Manager. The selected candidate will lead strategic sourcing initiatives, strengthen supplier performance, drive procurement excellence, and collaborate with cross-functional teams to support business growth and operational objectives.

This organisation is a global leader in connectivity and sensor solutions serving the manufacturing and industrial sectors. It operates across international markets and is recognised for supporting innovation, operational excellence, and long-term business growth.

Job Ref: 7UTCK4

**Responsibilities:**

- Build and strengthen a competitive supply base to support business growth, operational resilience, and long-term sourcing objectives
- Drive procurement process enhancements to improve efficiency, effectiveness, and compliance across sourcing activities
- Manage supplier performance by monitoring productivity, quality, delivery, and risk management metrics
- Develop and execute long-term commodity and supplier strategies, with a focus on metal and stamping categories
- Identify and implement cost reduction opportunities in partnership with quality, engineering, operations, and finance teams
- Establish and develop a strategic procurement organisation to support both short-term and long-term business requirements
- Collaborate with regional and global procurement teams to leverage best practices and achieve enterprise sourcing goals

**Requirements:**

- Bachelor's degree or above in Engineering, Business, Supply Chain, or a related field
- More than 10 years of experience in procurement within the manufacturing industry
- More than 5 years of experience in procurement management roles within automotive or industrial manufacturing companies
- Team management experience overseeing approximately 15 members
- Robust sourcing and procurement experience in automotive or industrial manufacturing environments
- Strong leadership skills with a proven ability to drive cost savings, supplier risk management, quality, and delivery performance
- Excellent people management, coaching, and team development capabilities
- Fluent English communication skills in written and spoken environments
- Business level Japanese; fluent level English

**Preferred requirements:**

- More than 5 years of experience in procurement within the automotive industry
- STEM-related academic background
- Experience working for competitor organisations

---

**Company Description**

For over 25 years, in Japan, we have been a driving force in the Japanese bilingual recruitment market, providing high-quality candidates for our clients and access to the best jobs. We always put the interests of our clients and candidates first and run on a non-commission model that promotes a working culture where teamwork is incentivised. We strive to find the best fit for both employer and job seeker and don't push people into unsuitable roles.
