Job Description

Job Description

- Responsible for managing the attendance records of quality inspection staff in each area.
- Responsible for conducting quality inspections according to production plans and tasks.
- Responsible for preparing, filling out, and verifying inspection record documents related to the assigned area.
- Coordinate and assist QE in resolving abnormalities occurring in the production line.
- Responsible for confirming handovers between day and night shifts and following up on the implementation of handover content.
- Monitor and verify QC records (QC Ledger), including follow-up on corrective actions to ensure effective results.
- Responsible for storing and managing documents in the workplace area, including 6S management activities.

- Participate in handling nonconforming products and follow up/verify corrective actions to ensure compliance with defined guidelines.
- Assist in investigating customer complaints and follow up/verify corrective actions and monitoring of outcomes.

Qualification

- Diploma or higher in Mechanical Engineering or related field, with at least 3 years of hands-on quality control experience.
- Knowledge and familiarity with QC 7 Tools and the 5M1E principles.
- Ability to read mechanical engineering drawings and use measuring instruments such as vernier calipers, micrometers, height gauges, etc.
- Strong communication and coordination skills.
- High sense of responsibility, strong teamwork spirit, and commitment to self-development.
- Proficient in Microsoft Office applications.
- Good command of Chinese language (listening, speaking, reading, and writing), able to use it effectively as a working language for communication.
