Job Description

Hiring Position: Production Engineer (Aerosol Section)

Basic Salary 18,000 – 19,000 THB/Month

Key Responsibilities:

- Monitor and control aerosol production processes to ensure efficiency, quality, and compliance with work instructions.
- Adjust and optimize machine settings to achieve production targets and minimize defects.
- Analyze production problems, identify root causes, and implement corrective and preventive actions.
- Maintain and control production records and documentation accurately.
- Prepare weekly and monthly production reports, including performance and issues.
- Study and understand new product requirements and ensure readiness before mass production.
- Support and train supervisors, leaders, and operators on proper production methods and procedures.
- Ensure strict compliance with company policies, rules, and operational procedures.
- Follow and promote safety standards, 5S activities, and environmental practices.
- Perform duties in accordance with ISO 9001, ISO 14001, and Process Safety

Management (PSM) systems.

- Handle additional tasks assigned by the supervisor.

Qualifications:

- Bachelor's degree in Chemical Engineering or a related engineering field.
- Minimum 2 years of experience in chemical or manufacturing industries.
- New graduates are welcomed
- Intermediate level of English communication
