Job Description

Our client specializes in Mechanical Manufacturing business

Position: Mechanical Design Engineer

Salary: 25,000 – 35,000 THB

Location: Ayutthaya

Key Responsibilities of the position:

- Design and develop mechanical components and assemblies for automation machines, ensuring performance, reliability, and manufacturability.
- Create and maintain 2D/3D CAD models, engineering drawings, and BOMs in line with project requirements and standards.

- Collaborate with cross-functional teams (Electrical, Controls, Manufacturing) to deliver fully integrated automation solutions.
- Support prototyping, machine build, testing, and troubleshooting, implementing design improvements as needed.
- Ensure compliance with safety, quality, and industry standards while driving cost optimization and continuous improvement.

Qualifications required:

- Bachelor's degree or higher in Engineering (mechanical), Industrial Management or related field
- Minimum 2 years of experience in mechanical design
- Experienced in SolidWorks or another machine making program
- Knowledge and understanding of automation systems

Benefits:

- Uniform
- Cost of Living 600 THB
- Diligent 200 - 500 THB
- Social Security Fund
- Group Health Insurance
- Annual Health Check
- Yearly Bonus
- Other leaves as per Thai law and company policy

Working Day: Mon - Fri (8.00 - 17.00)
