Job Description

Position: Engineer (PCB Manufacturing)

Salary: 30,000 – 40,000THB +/- (Negotiable)

Location: Chachoengsao

Our client is a well-known power conversion and electronic control manufacturer.

Products: PCB base units.

Responsibilities

- Design support for new projects from customers, including technical input for production implementation.
- Act as the primary technical bridge between customers and component manufacturers.

- Oversee and drive new project initiatives within the organization, ensuring seamless cooperation across all departments.

Qualifications

- Education: Bachelor's degree in Electronics or a related field.
- Strong ability to analyze and interpret electrical circuit diagrams (direct design experience is a plus).
- Basic programming skills (C language, and VBA).
- Preferably 5+ years of electrical design experience.
- Welcoming driven early-career professionals with high potential and a strong desire to learn and advance.
