Job Description

COMPANY OVERVIEW

Our Client is a leading manufacturer of precision-engineered components, providing end-to-end solutions for global regions across Singapore, Malaysia, China, Thailand, Vietnam, India, Japan, and North America.

JOB RESPONSIBILITIES

- Lead end-to-end precision machining operations covering production, engineering, quality, supply chain, maintenance, and environmental, health, and safety functions.
- Drive key operational performance indicators including productivity, yield, scrap reduction, on-time delivery, cost optimization, and overall equipment effectiveness.
- Develop and execute mid- to long-term operational and transformation roadmaps aligned with business growth

objectives.

- Provide technical leadership in CNC machining, precision turning and milling, tooling design and maintenance, automation, and industrial engineering practices.
- Champion continuous improvement initiatives including lean manufacturing, structured problem solving, process capability improvement, and operational digitalization.
- Build, develop, and empower leadership teams while strengthening succession planning, talent development, and organizational capability.

JOB REQUIREMENTS

- Degree / Diploma in Mechanical Engineering or related field.
- Preferably with at least 8 years of experience in Production Management in Precision Machining industry.
- Strong technical skills and knowledge in CNC Machineries (i.e. Fanuc, Okuma, Mazak etc.)
- Proven track record improving productivity, quality, cost, and delivery.
- Strong leadership and coordination skills to manage production team.

Interested candidates are welcomed to apply online.
