## Job Description

**Job Description:**

- Plan and control production to meet customer demand and business goals.
- Create and manage production schedules and capacity plans.
- Make sure production runs on time, at the right cost, and with required quality.
- Identify and fix production issues such as delays, bottlenecks, or material shortages.
- Work closely with Supply Chain, Procurement, Logistics, Sales, and Engineering.
- Ensure materials are available while keeping inventory at a reasonable level.
- Support S&OP and management reviews with clear production data.

- Ensure compliance with safety, quality, and audit requirements.
- Lead, train, and develop the production planning team.
- Track key performance metrics and drive continuous improvement.

**Job Requirements:**

- Bachelor's degree in Industrial Engineering, Manufacturing, Supply Chain Management, or a related discipline.
- 10–15 years of experience in production planning, production control, or manufacturing operations.
- At least 5 years of experience in senior leadership, managerial, or Head-of-Department role.
- Strong understanding of manufacturing systems, ERP/MRP platforms, and S&OP processes.
- Demonstrated ability to lead and manage complex, high-volume manufacturing environments.
- Good working knowledge of ISO standards and quality management systems.
- Excellent communication, stakeholder engagement, and executive presentation skills.
