### Job Description

**COMPANY OVERVIEW**

Our Client is a well-established Manufacturing Company specializing in the production of automotive components, delivering high-quality solutions aligned with global quality standards, supplying to International and Local Vehicle Manufacturers.

**JOB RESPONSIBILITIES**

- Lead implementation, maintenance, and continuous improvement of QMS and EMS in line with IATF 16949, ISO 9001, ISO 14001, and related standards
- Manage certification processes and act as key liaison with auditors, customers, consultants, and authorities
- Ensure organization-wide compliance with quality, environmental, regulatory, and customer requirements
- Develop, maintain, and control system documentation (manuals, SOPs, work instructions, control plans, records)
- Plan and conduct internal audits, prepare for external audits, and drive closure of audit findings and CAPA

- Lead continuous improvement and problem-solving using tools such as 8D, FMEA, SPC, MSA, and PDCA
- Ensure compliance with legal, environmental, and customer-specific requirements, including sustainability initiatives
- Coordinate cross-functional activities, support NPI and process changes, and conduct training and awareness programs

#### **JOB REQUIREMENTS**

- Possesses Bachelor's Degree / Diploma in Engineering, Quality Management, or related field
- Preferably with at least years of QMS experience in Automotive Component Manufacturing.
- Strong knowledge in **IATF 16949, ISO 9001, ISO 14001, QS9000, and other relevant Automotive compliances.**
- Well versed in Quality Tools implementation (FMEA, SPC, MSA, 8D, root cause analysis, audits).
- Strong analytical and problem-solving skills.

Interested candidates are welcomed to apply online.
