### Job Description

#### COMPANY OVERVIEW

Our Client is a leading manufacturer of precision-engineered components, providing end-to-end solutions for global regions across Singapore, Malaysia, China, Thailand, Vietnam, India, Japan, and North America. The organization operates a large-scale production facility supporting high-precision components and is focused on driving operational excellence, innovation, and long-term growth. The company is hiring for a General Manager position, to lead the manufacturing workforce as well as contribute to the business performance and transformation.

#### JOB RESPONSIBILITIES

- Oversee daily operations across production, engineering, quality, maintenance, supply chain, and environmental health and safety to ensure stable and efficient performance
- Drive improvements in operational metrics such as yield, cost, on-time delivery, and overall equipment effectiveness

while strengthening process capability

- Lead cross-functional teams to resolve complex issues, manage crises, and maintain operational discipline across the plant
- Strengthen manufacturing processes including machining, forming, and surface treatment while enhancing automation and industrial engineering practices
- Champion continuous improvement initiatives and foster a culture of accountability, ownership, and structured problem-solving
- Support financial planning activities including budgeting, capital investment evaluation, and performance tracking while contributing to business expansion plans
- Develop and mentor leadership teams, build succession pipelines, and drive long-term organizational capability and cultural transformation
- Ensure compliance with safety, environmental, and regulatory requirements while reinforcing risk management practices

#### **JOB REQUIREMENTS**

- Bachelor's Degree/ Master's Degree in Engineering, Manufacturing Management or a related field
- Strong leadership experience in a precision operations manufacturing (i.e. machining, forming processes, surface treatment technologies etc.)
- Capability in driving operational improvements and lead transformation initiatives
- Experienced in managing large teams and building high performing organizations
- Demonstrate strong financial and operational insight, with the ability to drive efficiency and cost effectiveness.
- Excellence leadership, communication and stakeholder managements skills.

Interested candidates are welcomed to apply online.
