Job Description

- Prepare product cost calculations for new projects and upcoming models, ensuring accurate estimation of manufacturing costs.
- Handle cost planning and budgeting activities, including detailed cost breakdowns and financial projections.
- Analyze Bill of Materials (BOM), raw material costs, process costs, and overhead allocation to determine cost drivers.
- Develop project-wise cost sheets and conduct profitability analysis to support business decisions.
- Monitor and track target cost vs. estimated cost, identifying variances and recommending corrective actions.
- Support quotation preparation and address customer costing requirements in a timely manner.
- Collaborate cross-functionally with Purchase, Production, PPC, Technical, and Quality teams to gather cost inputs and ensure alignment.
- Manage overall project progress and facilitate related review meetings with stakeholders.

- Participate in cost reduction initiatives, VA/VE (Value Analysis/Value Engineering) activities, and continuous improvement programs.
- Maintain costing records, MIS reports, and documentation within ERP/SAP systems.
- Analyze material cost trends and supplier quotations to evaluate impact on project costing.
- Support management in project review meetings and financial planning discussions by providing relevant data and insights.
