Job Description

■ Location: Greater Noida, India

■ Experience: 2–6 years

■ Key Responsibilities

- Manage operation and maintenance of utility systems and infrastructure
- Oversee water treatment facilities (WTP, STP, ETP)
- Conduct preventive maintenance and troubleshooting activities
- Monitor system performance and ensure regulatory compliance
- Support energy efficiency and reliability improvement initiatives

- Collaborate cross-functionally to ensure smooth plant operations

■Preferred Profile

- Experience in manufacturing or plant operations
- Strong knowledge of utility systems and environmental processes
- Japanese language proficiency (JLPT N4 or above) is an advantage

■Why Join?

- Exposure to critical operational functions within a manufacturing environment
- Opportunity to work on sustainability and efficiency-driven initiatives
- Strong platform for technical and career growth
