Job Description

COMPANY OVERVIEW

A well-established technology services company delivering IT solutions, infrastructure support, and outsourced operational services. It works with clients across various sectors to enhance efficiency and strengthen digital capabilities.

This is a 4-month agency contract role (renewable/extendable).

JOB RESPONSIBILITIES

- Design, develop, and maintain enterprise applications using Node.js, .NET, and Oracle databases
- Work closely with business users and technical teams to deliver system enhancements and improvements
- Investigate, troubleshoot, and resolve application issues while optimizing performance
- Participate in code reviews to maintain code quality and adherence to development standards

- Support application deployments and ensure ongoing operational stability

JOB REQUIREMENTS

- Bachelor's degree in IT or a related discipline.
- At least 3 years of experience in software development.
- Strong hands-on experience with Node.js application development
- Proven experience building applications using .NET technologies
- Solid working knowledge of Oracle databases, including SQL and PL/SQL
