Job Description

Company Overview

Our client is a global contractor with a prestigious heritage in marine engineering, land reclamation, and large-scale civil construction. They are renowned for delivering iconic infrastructure, high-tech industrial facilities, and complex building projects. As they continue to drive growth and expansion, they are now seeking a Planning Engineer to join their team and contribute to their ongoing success.

Key Responsibilities

- **Schedule Management:** Develop, control, and update the Master Programme and construction schedules; incorporate actual progress, revised sequences, and additional works into planning documents.
- **Progress Monitoring:** Track resources and work progress against the baseline schedule; maintain records of site activities, including monthly progress photographs and videos.
- **Reporting:** Prepare and submit daily, weekly, and monthly manpower and equipment reports; compile and maintain

comprehensive Monthly Progress Reports for clients and internal stakeholders.

- Cross-Functional Coordination: Issue regular progress updates to the Construction, Engineering, and Contract teams to ensure alignment across all disciplines.
- Delay Analysis & Mitigation: Identify progress deviations and conduct thorough delay impact analyses; develop recovery programs and prepare substantiation records for excusable delays.

Key Requirements

- Education: Bachelor's Degree in Civil Engineering, Structural Engineering, Project Management, or a related field.
- Experience: Minimum of 5 years of relevant experience in Civil projects. (Candidates with 8–10 years of experience will be considered for Senior roles).
- Technical Skills: Proficient in project life cycle management and expert-level usage of Primavera P6.
- Industry Knowledge: Strong understanding of construction methodologies and construction sequencing.
- Communication: Excellent verbal and written communication skills for reporting and inter-departmental coordination.
- Analytical Ability: Strong data analysis skills to support delay mitigation and resource optimization.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
