No permission to work in Japan required

### Job Description

#### Company Overview

Our client is a global contractor with a prestigious heritage in marine engineering, land reclamation, and large-scale civil construction. They are renowned for delivering iconic infrastructure, high-tech industrial facilities, and complex building projects. As they continue to drive growth and expansion, they are now seeking a Senior Tender Engineer to join their team and contribute to their ongoing success.

#### Key Responsibilities

- **Tender Management:** Assist in coordinating tenders for diverse projects including dredging, reclamation, port development, and infrastructure. This involves analysing project specifications, scope of work, and contractual requirements.
- **Strategy & Planning:** Develop comprehensive construction sequences and bid strategies under the guidance of the Tender Manager. You will attend pre-tender meetings and site visits as required.

- **Cross-Functional Collaboration:** Liaise with engineering, quantity surveying, finance, and operations teams to identify cost-saving opportunities and conduct rigorous risk assessments.
- **Proposal Development:** Prepare and present detailed tender proposals—including cost estimates, schedules, and methodologies—for internal review and executive approval.
- **Quality Control:** Review all submission documents to ensure contractual, legal, technical, and operational aspects are fully addressed before the deadline.
- **Post-Tender Support:** Participate in client presentations, interviews, and clarifications. For successful bids, you will ensure a high-quality handover to the project management team.

#### Key Requirements

- **Education:** Bachelor's Degree in Civil Engineering or related field of studies.
- **Experience:** A minimum of 10 years of professional experience in the construction industry.
- **Specialization:** Relevant experience in marine civil construction (e.g., dredging, reclamation, or coastal works) is highly advantageous.
- **Technical Proficiency:** Skilled in Microsoft Office, CAD, and relevant construction planning or management software.
- **Regulatory Knowledge:** Familiarity with local bidding processes, standards, and regulations.
- **Core Competencies:**
  - Exceptional attention to detail and the ability to manage multiple tenders simultaneously.
  - A positive attitude and the resilience to work under pressure to meet strict deadlines.
  - Strong analytical skills to interpret complex tender documents and identify project risks.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
