Job Description

Head of Information Security Overview

Our client is a well-established organization seeking a skillful in Information Technology & Cybersecurity leader to define and drive the organisation's security strategy, ensuring the protection of critical information assets while enabling business growth.

This role requires a strong balance of **leadership, strategic vision, and execution capabilities**, with sufficient technical depth to guide teams and decision-making.

Key Responsibilities

1. Security Strategy & Leadership

- Develop and drive a comprehensive cybersecurity roadmap aligned to business priorities
- Convert organisational goals into practical security initiatives, considering risk, cost, and efficiency

- Provide guidance on evolving cyber risks, trends, and best practices
- Lead and shape a capable, high-performing cybersecurity team

2. Risk, Governance & Compliance

- Design and uphold organisation-wide security governance structures
- Manage the identification, evaluation, and mitigation of security risks across systems and data
- Ensure adherence to relevant regulations, policies, and industry standards
- Present security risks, performance insights, and key metrics to senior stakeholders

3. Security Delivery & Operations

- Drive the rollout and execution of security programmes, controls, and technologies
- Maintain strong incident management capabilities, including coordination during critical events
- Continuously enhance the organisation's security posture through reviews and improvement plans
- Support secure implementation of new technologies and business initiatives

4. Business & Stakeholder Collaboration

- Serve as the key link between technical teams and business leadership
- Advise and influence senior management on cybersecurity strategy and investments
- Work across departments to integrate security into day-to-day operations

5. Team Development & Culture

- Lead recruitment, development, and mentoring of cybersecurity professionals
- Ensure the team is equipped with the right expertise and resources
- Foster a culture of security awareness across the organisation

Requirements

- Extensive experience in cybersecurity, information security, or technology risk leadership roles
- Proven ability to define and execute enterprise-wide security strategies
- Strong leadership and stakeholder management experience at senior levels
- Solid understanding of security frameworks, governance, and risk management
- Sufficient technical knowledge to guide architecture, controls, and security operations
