Job Description

Job Description:

- Perform installation of UPS (Uninterruptible Power Supply) and MV Drives (Medium Voltage Drives) at customer sites
- Conduct testing and commissioning to ensure systems operate according to specifications
- Prepare commissioning reports and documentation
- Carry out preventive maintenance to ensure system reliability
- Perform corrective maintenance in case of failures or issues
- Troubleshoot technical problems related to UPS and MV Drives systems
- Ensure optimal system performance and uptime
- Provide technical support to customers and internal teams
- Analyze technical issues and deliver effective solutions
- Coordinate with global teams or principals when necessary
- Prepare service reports, maintenance reports, and technical documentation
- Support project activities such as system installation or upgrades
- Ensure project execution meets timelines, quality standards, and safety requirements
- Ensure all work complies with health, safety, and environmental (HSE) standards

Requirements:

Bachelor's Degree (S1) in Electrical Engineering or related field.

- 5+ years in related field (UPS and MV Drives)
- Minimum 5 years of experience in a related field
- Experience working with reputable brands or other leading brands in industrial and commercial UPS and MV Drives
- Good command of English (spoken and written)
- Strong communication and interpersonal skills
- Willingness to travel as required
