Job Description

About the Role

We are seeking an experienced Assistant Manager, EHS to support and oversee environmental, health and safety operations across multiple project and operational sites within a data center / digital infrastructure environment. This role plays a critical part in ensuring compliance with regulatory requirements, driving safety standards and supporting ongoing construction and operational activities.

Key Responsibilities

- Develop, implement and maintain EHS policies, procedures and programmes
- Conduct regular audits, inspections and risk assessments across operational and project sites
- Oversee and ensure compliance with ISO 45001 and local safety certifications (e.g. BizSafe)
- Act as the subject matter expert on EHS matters, advising internal stakeholders and project teams

- Monitor and investigate incidents, near misses and safety issues, ensuring proper reporting and closure
- Review risk assessments, safe work procedures and contractor safety documentation
- Support and oversee high-risk work activities, ensuring safe execution and compliance
- Work closely with project and operations teams to ensure safety requirements are integrated into planning and execution
- Track audit findings and ensure timely closure of corrective actions
- Support safety meetings, prepare reports and drive continuous improvement initiatives

Requirements

- Bachelor's degree or relevant qualification in Engineering, Environmental Science or related field
- Minimum 5 years of EHS experience, ideally within operations and project environments
- Experience in industries such as data centre, construction, facilities management or manufacturing would be advantageous
- Registered Workplace Safety & Health Officer (WSHO) is mandatory
- Additional certifications such as ECO, Fire Safety Manager or ISO 45001 Lead Auditor are preferred
- Experience managing contractors and overseeing construction / A&A / fit-out projects
- Strong knowledge of local safety regulations and compliance requirements
- Good communication, coordination and stakeholder management skills
- Strong analytical and problem-solving capabilities
