【業務内容】

< Position Summary >

MP&L and Customer Service Team Leader is responsible for executing and continuously improving MP&L (Materials Planning & Logistics) operations within MHJP. The role ensures alignment with global supply chain strategies while driving operational excellence in forecasting, inventory management, logistics planning, and customer service. This position plays a key role in enabling end-to-end supply chain visibility, optimizing service levels. The role requires cross-functional collaboration with key internal and external stakeholders, including GBTS, Customer Service, and 3PL providers, to drive operational efficiency, innovation, and customer satisfaction

< Main Accountabilities >

1 . Strategy & Continuous Improvement

- Define and execute the MP&L strategy for MHJP in alignment with global supply chain and business priorities.
- Drive continuous improvement and innovation across all MP&L processes to enhance efficiency, reduce costs, and improve service levels.

2 . Inventory & Performance Management

- Develop and implement inventory strategies for MHJP Distribution Centers.
- Drive prioritization and escalation processes for inventory-related challenges and ensure timely execution of mitigation measures.
- Establish robust systems for tracking backorders and executing recovery plans to meet customer commitments.

3 . End-to-End Supply Chain Execution

- Implement and manage End-to-End (E2E) control towers to monitor and enhance delivery performance in MHJP.
- Align supply chain operations with supplying plants, ensuring seamless coordination of inventory flow and fulfillment.
- Collaborate with the Distribution and Transportation Team to synchronize forecast-to-DC processes and optimize distribution strategies.
- Partner with GBTS (Global Business & Technology Solutions) to ensure seamless integration of technology solutions for data processing, customer service, and other shared services.
- Cooperation with the BU / Sales and implementing/adopting global standards.

4 . Customer Service & Stakeholder Management

- Lead the Customer Service team to drive customer-centric strategies, ensuring timely order fulfillment and proactive communication.
- Develop and implement service level agreements (SLAs) for Customers, Suppliers (both, internal and external) and other functional departments.
- Manage operational relationships with 3PL providers and participate in Business Reviews to ensure service levels and operational efficiencies are met.

5 . Planning & SIOP Management

- Lead forecasting, inventory management and logistics planning processes, ensuring its alignment with financial and operational goals.
- Facilitate and actively contribute to the SIOP (Sales, Inventory & Operations Planning) process by coordinating crossfunctional inputs from Sales, Marketing, and Operations.

6 . Digitalization & Data Integrity

- Ensure the integrity of data processing and intake to enable accurate forecasting, planning, and reporting.
- Utilize advanced analytics to identify trends, risks, and opportunities for continuous improvement.

7 . Performance & Reporting

- Monitor key performance indicators (KPIs) and provide regular updates to senior leadership on supply chain performance.

8 . Leadership & Organizational Development

- Lead, develop, and mentor a multidisciplinary team, including SIOP/Replenishment Planners, Customer Service representatives, Analysts, and IT Project Managers.
- Foster a culture of accountability, innovation, and excellence within the team.
- Build organizational capability through succession planning, skills development, and cross- functional collaboration.

< Key Performance Indicators / Key Result Areas >

- KPI49 Inventory Targets , Markdown Inventory Reduction
- Delivery Performance, OTIF and Parts Availability
- Forecasting / SIOP Implementation & Forecasting accuracy
- Inventory segmentation optimization analysis, SIOP capacity and demand distribution
- Distribution Network Optimization-Material planning and inventory strategies
- Active usage of Digital Analytical Solutions
