Job Description

We are an international player in the renewable energy sector, committed to advancing sustainable energy solutions worldwide. To support our expanding project pipeline, we are looking for a skilled Electrical Engineer to join our dynamic team.

Key Responsibilities:

1. Grid Permit Evaluation & Application

2. TSO Communication & Liaison
 3. EPC Electrical Design Evaluation
 4. Technical Documentation & Compliance
-

Required Skills

Requirements & Qualifications:

- Bachelor's or Master's degree in Electrical Engineering, Power Systems, or a related technical field. Professional engineering license (PE) in Japan is highly preferred. English proficiency for work purposes is preferred.
 - Minimum 5 years of relevant experience in electrical engineering, with a focus on grid connection, power systems, or energy storage projects (BESS, solar PV, wind) in Japan.
 - Proven track record in handling grid permit applications and communicating with Japanese grid operators (e.g., TEPCO, KEPCO, Okinawa Electric Power) is mandatory.
 - Experience in evaluating EPC electrical designs for large-scale energy projects, familiarity with Japanese electrical standards (JIS) and grid codes is essential.
