Job Description

Hiring: Head of IT (AI Project)

We're partnering with an exciting global-backed organization launching a new tech-driven projects in Indonesia, focused on AI and digital transformation for Finance & Accounting.

Responsibilities:

- Advise leadership on AI adoption, automation, and machine learning use cases that enhance business performance.
- Design and implement scalable systems with strong cybersecurity frameworks (IAM, firewalls, endpoint protection).
- Develop enterprise solutions and automated workflows aligned with modern FinTech standards.
- Set up data architecture to support analytics, business intelligence, and AI deployment.

- Manage relationships with ISPs, hardware vendors, and AI/software providers.
- Recruit, mentor, and scale a high-performing IT team as the business grows.
- Own everything—from infrastructure and helpdesk to asset management—independently.

Qualifications:

- 7+ years in IT, including 3+ years in a leadership role.
- Strong background in FinTech, InsurTech, or AI-driven environments.
- Expertise in cloud platforms (AWS / Azure / GCP).
- Experience with AI/ML frameworks & data systems.
- Solid understanding of cybersecurity standards (ISO 27001, NIST).
- Proven ability to build IT functions from scratch.
- Strong leadership, independence, and decision-making skills.
- Degree in Computer Science / IT / Data Science (or related field).
