A global automotive company is seeking an experienced **Technical Project Manager – AI & Data** to lead enterprise AI, Data Analytics, Automation, and Digital Transformation initiatives.

This is an excellent opportunity to drive high-impact technology projects that transform business operations through AI, analytics, and automation. Working with global teams across Japan and overseas, you will bridge business and technology while delivering enterprise-scale initiatives from planning through implementation.

Responsibilities:

- Lead AI, Data Analytics, Automation, and Digital Transformation projects from initiation to delivery.
- Manage project scope, schedules, budgets, risks, governance, and overall project execution.
- Develop project roadmaps, milestones, and delivery plans aligned with business objectives.
- Collaborate with business stakeholders to identify opportunities for AI and data-driven improvements.
- Translate business requirements into technical project plans and coordinate execution across cross-functional teams.
- Work closely with AI Engineers, Data Engineers, Developers, Business Analysts, vendors, and global teams.
- Drive user adoption, change management, and continuous improvement initiatives.
- Monitor project KPIs, business value, and delivery performance.
- Ensure compliance with security, privacy, and governance requirements.
- Provide regular project updates and executive reporting to senior stakeholders.

Why You Should Apply:

- Lead enterprise-wide AI and Digital Transformation initiatives that directly influence business strategy.
- Collaborate with international teams and experienced AI, Data, and technology specialists.
- Work with modern technologies including AI, Data Analytics, Automation, Microsoft Power Platform, and enterprise digital solutions.
- Take ownership of large-scale, business-critical projects with high visibility across the organization.
- Join a globally recognized automotive manufacturer committed to innovation and digital transformation.
- Excellent opportunity for career growth within a multinational environment.

Company Details:

A leading global commercial vehicle manufacturer with operations in more than 170 countries is investing heavily in next-generation digital technologies, AI, and enterprise transformation.

The company offers a collaborative international environment where innovation, engineering excellence, and continuous improvement are at the core of its business.

Working Hours: Flexible Hours (8:00–17:00 or 9:00–18:00, No Core Time)

Working Style: Office-based (5 days/week)

Location: Kawasaki

Holidays: Saturdays, Sundays & National Holidays, Year-end & New Year Holidays, Paid Annual Leave

Services/Benefits: Performance Bonus (Paid twice per year), Transportation Allowance, Social Insurance, Health Checkups, Employment Insurance
