Job Description

生産するパイプベンダーおよびパイプ加工関連マシンの設計・開発のお仕事です。

機械動作のタイムチャート作成や生産・検査・据付の指導もお願いします。

機械工学部、機械系専門学校などの出身者で、知識のある方歓迎

This role involves the design and development of pipe bending machines and related pipe-processing equipment manufactured by the company. Responsibilities also include creating timing charts for mechanical operations, as well as providing guidance on production, inspection, and installation processes.

Candidates with a background in mechanical engineering — whether from a university mechanical engineering department or a technical/vocational school — and relevant knowledge in the field are welcome to apply.
