Job Description

Position : SPD Engineer

Salary : 17,000 - 25,000 THB (allowance included)

Qualification:

- Mechanical Engineering Bachelor's degree.
- 0–3 years of experience in manufacturing or automation (Fresh graduates are welcome)
- Toeic 500 point up.
- Basic knowledge of manufacturing processes (Milling, Grinding) or Automation systems.
- Strong analytical and problem-solving skills.

- Proficient in Microsoft Excel (data analysis and reporting).
- Responsible, fast learner, and able to work under pressure.
- Experience in Lean, Kaizen, or Automation will be an advantage.

Job description:

- Take ownership of machines and processes to ensure stability, performance, and compliance with standards.
- Support and develop Automation projects (e.g., Robotics, Auto Inspection, Equipment Improvement).
- Drive continuous improvement activities (Kaizen, Lean, Cost Reduction) and monitor measurable results.
- Control and improve production processes in SP2 / SP3 (Milling, Grinding) to enhance product quality and productivity.
- Analyze production line issues using Root Cause Analysis (RCA) and implement Corrective and Preventive Actions (CAPA) to prevent recurrence.
- Take ownership of machines and production processes within the assigned area (Process Owner) to ensure stability, reliability, and compliance with established standards.
- Support and develop Automation projects, including robotics, automated inspection systems, and equipment improvement initiatives.
- Drive continuous improvement activities such as Kaizen, Lean Manufacturing, and Cost Reduction programs, while monitoring and reporting measurable results.
