Job Description

Costing Manager (Manufacturing)

Location : Bangkok

Job Responsibilities:

Cost Standardization

- Lead the standardization of costing methodologies across key business partners and vendors.
- Ensure consistency in cost structures to support pricing transparency and operational efficiency.
- Maintain and improve centralized costing tools and reporting frameworks.

Cost Governance & Controls

- Strengthen cost governance processes and ensure pricing accuracy across procurement activities.
- Monitor compliance with approved pricing structures and internal controls.
- Partner with cross-functional teams to ensure cost discipline and process effectiveness.

Cost Analysis & Reporting

- Review and analyze cost performance against approved standards and budgets.
- Investigate cost variances and recommend corrective actions.
- Support accurate financial reporting through reliable costing data and insights.

Stakeholder Management

- Serve as a trusted business partner for costing and pricing-related matters.
- Collaborate with internal stakeholders to align on cost assumptions, planning, and reporting requirements.

Process Improvement

- Drive continuous improvement initiatives to enhance efficiency, transparency, and data quality.
- Support automation and digital solutions to improve reporting and decision-making.

Job Qualifications:

- Bachelor's degree in Finance, Accounting, Business Administration, Supply Chain, Economics, or a related field.
- 10+ years of experience in finance, cost management, financial controlling, or business finance.
- Strong analytical skills with experience in financial analysis, budgeting, forecasting, and performance management.
- Solid understanding of governance, internal controls, and compliance principles.
- Proven ability to collaborate effectively with cross-functional teams and key stakeholders.
- Strong process improvement mindset with a track record of driving operational efficiencies.
- Experience managing complex business processes in a dynamic environment.
- Exposure to manufacturing, supply chain, operations, consumer goods, retail, or related industries is an advantage.
- Advanced Excel and data analysis skills; SAP or other ERP system experience preferred.
- Excellent communication, presentation, and stakeholder management skills, with fluency in both Thai and English.
