Job Description

COMPANY OVERVIEW

Our client is a leading IT consulting company in Japan, supporting clients' transformation of management, business, and IT.

We are looking for an ERP Consultant / Development Lead responsible for end-to-end ERP (Odoo) implementation for Japanese enterprises expanding across Southeast Asia. The role focuses on Fit-to-Standard system design, hands-on development leadership, and close collaboration with offshore delivery teams to solve complex business and operational challenges.

JOB RESPONSIBILITIES

- Lead system design, development, testing, and data migration for ERP projects.
- Define and execute development and testing strategies, schedules, and delivery methods with offshore partners

- Translate business requirements into Fit-to-Standard ERP solutions, minimizing customization
- Actively engage in execution, managing tasks, issues, and progress during development, testing, and migration phases
- Ensure high system quality and scalable solutions across multi-country projects

JOB REQUIREMENTS

- Proven experience in ERP / packaged software implementations (ERP, SCM, etc.) ideally in Odoo.
- Strong understanding of Fit-to-Standard methodologies and data migration
- Leadership experience in development, testing, or migration phases of global IT projects

BENEFITS

-Package: Basic salary (depending on your experience) + Performance bonus
