Job Description

Company and Job Overview

A leading provider of ophthalmic (eye care) instruments, serving healthcare professionals and medical institutions, is seeking an Application Specialist to support product application activities and deliver professional product demonstrations.

Job Responsibilities

- Conduct product demonstrations and application training for customers, including ophthalmologists, optometrists, and clinical staff
- Assist the sales team in presenting product features, benefits, and clinical applications.
- Set up and configure devices and software, while collaborating with IT teams on system integration
- Monitor industry trends, clinical studies, competitor products, and evaluate new technologies for future business opportunities

- Support regional sales and marketing activities through product demonstrations, trade shows, CME presentations, and training workshops across APAC

Job Requirements

- Degree in Optometry, Ophthalmic Science, Biomedical Science, Life Sciences or a related healthcare field
- Experience in clinical applications or product training for ophthalmic is preferred
- Knowledge of ophthalmic diagnostic instruments such as OCT, biometer, perimeter, topographer, autorefractor, phoropter, and slit lamp is an advantage
- Strong presentation, communication, and training skills, with the ability to educate healthcare professionals and conduct product demonstrations
- Willingness to travel within Malaysia and the APAC region to support customer training, workshops and trade shows
- Applicants must be Malaysian citizens or hold valid work authorization
