Job Description

Position: Design & Development Manager

Location: Bangpoo industrial estate, Samut Prakarn

Product: Transformers & Switchboards for Data Centers

Responsibilities:

- Manage and oversee the Electrical Engineering Design Department for power transformer and control panel projects.
- Develop conceptual designs and prepare BOQs for power transformers and control panel bidding/tender activities.
- Review and apply MV (22kV) and LV electrical system specifications, including MDB and electrical distribution requirements.

- Evaluate, select, and inspect electrical equipment to ensure compliance with project specifications and industry standards.
- Provide technical consultation on power system design, transformers, and control panel installation projects.
- Coordinate with customers, suppliers, and contractors throughout project design, bidding, and implementation phases.
- Conduct site surveys and collect technical data to support project estimation, BOQ preparation, and proposal submissions.

Requirements:

- Bachelor's Degree in Electrical Engineering or related field.
- Experience in transformer, switchboards, or electrical equipment design.
- Able to use AutoCAD or related design software.
- Good communication and teamwork skills.
- Able to visit Pathum Thani manufacturing site when required.
