Job Description

Position: Electrical Manager**Qualifications:**

- Bachelor's Degree in Electrical Engineering or related field.
- At least 5–10 years of experience in electrical engineering, maintenance, or project management.
- Experience in leading and supervising a team.
- Good knowledge of electrical systems, equipment, and safety standards.
- Ability to analyze and solve technical problems.
- Good planning and organizational skills.
- Good communication and teamwork skills.

- Able to use Microsoft Office and basic engineering software.
- Good command of English, both spoken and written (preferred).

Job description:

- Manage and supervise all electrical engineering and maintenance activities.
- Ensure electrical systems and equipment operate safely and efficiently.
- Plan, organize, and monitor preventive and corrective maintenance work.
- Lead, guide, and support the electrical team in daily operations.
- Monitor project progress and ensure work is completed on time and within budget.
- Coordinate with other departments, contractors, and suppliers when required.
- Ensure compliance with company policies, electrical standards, and safety regulations.
- Investigate electrical issues and implement corrective actions.
- Prepare maintenance reports, work schedules, and performance records.
- Control maintenance costs and manage spare parts and equipment requirements.
- Support continuous improvement activities to improve system reliability and efficiency.
- Perform other duties as assigned by management.
