Job Description

Position: Electrical Construction Site Manager
Location: Sukhumvit 61, Bangkok
Product: Control Pannel, Electrical & Automation system

Responsibilities:
• Supervise and manage electrical construction projects within the factory, including installation, modification, and maintenance of control panels and automation systems.
• Review and interpret electrical blueprints and technical drawings to ensure accurate implementation.
• Coordinate with production, quality assurance, and document control teams regarding design changes and engineering modifications.
• Oversee contractors and site workers to ensure compliance with safety standards, project timelines, and quality requirements.
• Manage scheduling and execution of electrical installation and modification work during factory shutdown periods.
• Provide technical support and troubleshooting for electrical systems and automation equipment.
• Ensure compliance with company standards, IATF 16949, ISO 14001, and other relevant

regulations.
• Liaise between Japanese engineers and Thai staff, providing interpretation and translation support when necessary.

Requirements:
• Over 5 yrs experience
• Experience supervising electrical construction work (control panel and systems + electrical blueprint)
• Experience with creating progression reports for electrical construction work
• Experience coordinating installation and modification work during factory shutdown periods
