Job Description

A **multinational healthcare company** is seeking a **Project Manager (Pharmacy Background)** to lead a **strategic digital health initiative in Indonesia**. The role focuses on **regulatory interface**, **market access**, and collaboration with the **Ministry of Health**, **healthcare providers**, and **global teams** to ensure **smooth market entry and compliance**.

Qualifications

- **Fluent in English,** both written and spoken.
- **Education**: **Bachelor or Master's degree in Pharmacy** .
- **Experience & Domain Expertise**: **7–10+ years of professional experience** in pharmacy practice, clinical pharmacy, or regulatory affairs, with **strong domain expertise in pharmacy sciences** and overall knowledge about **Western and Traditional medications prescribed in Indonesia** .
- **Regulatory Track Record**: **Proven experience with the Indonesian Ministry of Health** and healthcare providers, including regulatory submissions, compliance, or project interface.
- **Digital Prescription Systems**: **Hands-on experience with digital pharmacy prescription systems** used across Indonesia (public and private).

- **Drug Administration Knowledge**: **Strong knowledge of BPOM/Kemenkes regulations** and the registered drug lists across the country.
- **Scientific Contribution**: **Proven track record in publishing research articles or academic journals** ; peer-reviewed publications are highly preferred.
- **Technical & Analytical Skills**: Proficiency in **Excel**, **Power BI**, **Tableau**, **SQL queries**. Experience with **Python/AI and predictive analytics** is a strong plus.

Responsibilities:

- **Regulatory & Market Access Liaison**: Act as the primary contact with the Indonesian Ministry of Health and healthcare providers, ensuring compliance and enabling smooth market access.
- **Cross-functional Collaboration**: Work closely with clinical and IT teams to deliver the project successfully, on time, and to the highest professional standards.
- **Project Leadership**: Lead the project locally in Indonesia, represent the organization professionally, and oversee day-to-day activities.
- **Domain Expertise**: Provide knowledge of pharmacy sciences, medications prescribed in Indonesia (Western and Traditional), and digital prescription systems used across public and private sectors.
- **Communication Management**: Maintain clear, accurate, and timely communication between Indonesian stakeholders and global teams, ensuring no gaps or misunderstandings.
- **Data & Analytics**: Apply analytical tools (Excel, Power BI, Tableau, SQL, Python) to monitor outcomes, generate insights, and support decision-making.
