Job Description

Our client operates in the chemical and functional materials industry, specializing heavily in semiconductor and electronic materials. Join them now as a QA Asst Manager/Manager and be a part of an ever-growing team.

Job Descriptions

- Manage and maintain the QMS in compliance with ISO 9001 and IATF 16949 standards.
- Manage Failure Analysis activities, identify root causes, and implement effective corrective and preventive actions.
- Plan, conduct, and manage internal audits, external audits, and certification audits.
- Lead root cause analysis and corrective/preventive action activities using structured problem-solving methodologies, including 8D.
- Drive continual improvement projects and activities such as 5S, Kaizen, Zero Defect (ZD), and Total Quality

Management (TQM).

- Manage customer complaints, non-conformance issues, and corrective action processes.
- Lead and develop Quality team through coaching and performance management.

Job Requirements

- Bachelor's Degree in Chemistry, Polymer, Material science, or related field.
- Min 5 years of experience in a management position in Quality.
- Certified QMS Lead Auditor.
- Strong knowledge of ISO 9001 and IATF 16949 requirements and implementation.
- Familiarity with Automotive Core Tools, including APQP, PPAP, FMEA, SPC, and MSA.
