Job Description

Job Description

- Lead QA/QC activities within the automotive-related manufacturing environment.
- Handle customer documentation and formats in English at a professional level.
- Take ownership of PPAP submissions and ensure compliance with customer requirements.
- Ensure deep understanding and application of IATF 16949 standards across QA/QC operations.
- Collaborate with cross-functional teams to transition PPAP responsibilities from Sales to QA/QC.
- Perform standard QA/QC duties including inspection, audits, corrective actions, and continuous improvement initiatives.
- Report quality performance and maintain compliance with company and industry standards.

Qualification

- Bachelor degree in Engineering or related field.
- Minimum of 5 years' experience in QA/QC within the automotive industry.

- High-level knowledge of IATF 16949 and proven experience leading PPAP processes.
