Job Description

This is an exciting opportunity for a bilingual Cloud Engineer to contribute to enterprise-scale cloud initiatives within a leading global life insurance organization. You will work with local and international teams to deliver secure, scalable cloud solutions while supporting ongoing digital transformation.

Client Details

Our client is a large multinational life insurance company with a strong technology investment strategy and an established presence in Japan. The organization is undergoing continuous modernization of its cloud ecosystem to improve operational efficiency, resilience, and customer experience.

Description

- Design, build, and maintain cloud infrastructure solutions.
- Support cloud migration, enhancement, and modernization projects.
- Collaborate with business and technology stakeholders in both Japanese and English.
- Monitor and optimize cloud environments for performance, reliability, and security.
- Troubleshoot infrastructure and platform-related issues.
- Contribute to automation, operational excellence, and cloud best practices.

- Work closely with global teams to deliver scalable and innovative technology solutions.

Job Offer

- Opportunity to join a globally recognized life insurance organization.
- Exposure to a broad range of cloud technologies and platforms.
- Flexible working arrangements with the possibility of remote work depending on business needs.
- Collaborative bilingual environment with local and international stakeholders.
- Involvement in strategic digital transformation initiatives.
- Long-term career development opportunities within a stable multinational business.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serena Wu on +81 3 6627 6137.

Required Skills

- Experience as a Cloud Engineer, Infrastructure Engineer, DevOps Engineer, or similar.
- Fluent Japanese communication skills (JLPT N2 level or above) and business-level English.
- Hands-on experience with one or more major cloud platforms such as AWS, Azure, or GCP.
- Understanding of cloud architecture, networking, security, and operational support.
- Experience working within enterprise environments.
- Strong communication and stakeholder management abilities.
- Experience within insurance or financial services is advantageous but not essential.

Company Description

Our client is a large multinational life insurance company with a strong technology investment strategy and an established presence in Japan. The organization is undergoing continuous modernization of its cloud ecosystem to improve operational efficiency, resilience, and customer experience.
