Job Description

Job Responsibilities

You will be responsible for the design, development, operation, and maintenance of Web and open-system software applications.

Required Skills & Experience

- At least one year of professional software development experience.
- Experience developing Web/Open systems using one or more of:
 - Java
 - PHP
 - Python
 - C#
 - JavaScript
- Experience using relational databases such as:
 - MySQL
 - PostgreSQL
- Working knowledge of SQL.
- Japanese proficiency equivalent to JLPT N4 and Above for candidates in Japan.
- Candidates outside Japan Visa sponsorship will be provided but should have completed N3 certification and above.

Note:

Successful candidates will receive three months of Japanese language training after joining. Applicants should have a strong willingness to improve their Japanese language skills.
