Bachelor's Degree

Visa Status
Permission to work in Japan required

Job Description

Key Responsibilities

- **Data pipeline development:** Design, build, and maintain ETL/ELT pipelines using Microsoft Fabric (Data Factory, Dataflows Gen2, Lakehouses) to ingest, transform, and serve data from internal and external sources
- **Power BI analytics:** Develop and optimize Power BI semantic models, DAX measures, and reports supporting commercial analytics (e.g., sales dashboards, HCP engagement tracking, inventory monitoring)
- **AI data integration:** Build and maintain MCP (Model Context Protocol) server integrations to connect enterprise data sources with AI solutions such as Copilot and Claude, enabling AI-assisted analytics and decision support
- **Data governance:** Support data quality, lineage documentation, and compliance with data governance standards

including data inventory and validation requirements
- **Cross-functional collaboration:** Work closely with business stakeholders, IT teams, and global data platform teams to translate data requirements into technical solutions and ensure alignment with enterprise architecture

Required Skills

Required Qualifications

- **Experience:** 3–5 years of hands-on data engineering experience, including ETL pipeline development, data modeling, and analytics platform support
- **Technical skills:** Proficiency in Microsoft Fabric (Data Factory, Dataflows Gen2, Lakehouse, SQL Analytics Endpoint), Power BI (semantic models, DAX, Power Query M), and SQL. Experience with Python for data transformation is a plus
- **AI integration:** Demonstrated experience or strong familiarity with MCP server architecture and integrating structured data sources with AI platforms (e.g., Copilot, Claude, or similar LLM-based tools)
- **Domain background:** Prior experience in the pharmaceutical or healthcare industry preferred; familiarity with commercial data (sales, HCP, consent) is an advantage
- **Language:** Native Korean speaker with fluent English (business-level written and verbal communication required)
- **Location:** Prefer to work on-site
