Job Description

We are seeking a Security Manager who can lead a small, high-impact security team and drive security governance, risk management, and consulting activities across multiple business units.

This role requires strong leadership, deep expertise in specific security domains, and the ability to collaborate globally.

You will guide team members, manage cross-functional initiatives, and contribute to global security programs while supporting strategic business decisions.

Key Responsibilities

- Lead security strategy development and governance initiatives
- Oversee risk assessments and drive remediation planning
- Provide high-level security consulting for business units (e.g., M&A, new business creation)
- Manage vulnerability programs and ensure continuous improvement

- Represent the security function in global meetings and cross-company collaborations
 - Mentor team members and support capability development
 - Contribute to global security operations and organizational alignment
-

Required Skills

Required Skills & Experience

- All requirements of the Specialist role
- **Team leadership experience**
- **Deep expertise** in one or more security domains (e.g., governance, risk assessment, vulnerability management, incident response)
- Ability to lead cross-functional projects and influence stakeholders

Preferred Skills

- Security certifications (CISSP, CISM, GIAC, etc.)
 - Experience in consulting or enterprise security leadership
 - Strong communication skills for global collaboration
 - Experience working in multinational environments
-

Company Description
