Job Description

COMPANY OVERVIEW

The client is a leading global player in the shipping and logistics industry, recognized for its strong market presence, operational excellence, and long-term commitment to technology-driven transformation.

JOB RESPONSIBILITIES

- Support the implementation and post-go-live support of SAP S/4HANA Finance modules, including Accounts Receivable (AR), Accounts Payable (AP), General Ledger (GL), Lease Accounting, and Fixed Assets.
- Assist in the integration between SAP S/4HANA and Veson IMOS Platform (VIP), supporting voyage accounting, financial postings, reconciliations, and issue resolution activities.
- Analyze, document, and support the enhancement of business processes across finance, commercial operations, and voyage accounting functions.
- Gather and translate business requirements into functional specifications and system solutions that support revenue

recognition, cost allocation, and financial reporting needs.

- Work closely with Finance and Commercial stakeholders to understand, validate, and document business requirements.
- Collaborate with business users, IT teams, implementation partners, and vendors to support project delivery and operational activities.
- Support project planning and execution activities, including milestone tracking, issue management, risk identification, and workstream coordination.
- Configure, test, and document SAP solutions in accordance with business and operational requirements.
- Participate in System Integration Testing (SIT), User Acceptance Testing (UAT), defect management, and solution validation activities.
- Support data migration activities, including data preparation, validation, reconciliation, and testing.
- Assist with go-live readiness, cutover activities, end-user training, and post-go-live hypercare support.
- Monitor and follow up on vendor deliverables and support timely resolution of issues in accordance with agreed service levels.
- Prepare project documentation, status updates, user guides, and training materials as required.
- Provide day-to-day application support and troubleshoot functional issues raised by business users.

JOB REQUIREMENTS

- Degree in IT, Computer Science, Accounting, Finance, or related field.
- 3 to 7 years' experience in SAP implementation, business analysis, or IT project delivery.
- SAP S/4HANA Finance expertise (AR, AP, GL, Fixed Assets, Lease Accounting).
- Strong knowledge of P2P, Voyage Accounting, and Financial Reporting processes.
- Experience in shipping, maritime, logistics, transportation, or energy industries preferred.
- Skilled in requirements gathering, gap analysis, process mapping, functional specifications, and UAT.
- Experience delivering solutions across complex, multi-site environments.
- PMP, PRINCE2, Agile, or Scrum certifications are advantageous.
- Strong analytical, stakeholder management, and communication skills.
