Job Description

«Job Description & Position Highlights»

- Data analysis work that involves investigating and verifying map data to support accurate and safe navigation
- The satisfaction of knowing that your research findings contribute to improving the quality of map services and benefit society and users
- An environment where you can hone your research and analysis skills from scratch and utilize your English and Japanese language abilities
- A flexible work style that allows you to work entirely from home for 10 to 20 hours per week, with the freedom to set your own schedule

【Job Responsibilities】

For thousands of years, maps have provided humans with the knowledge they need to make decisions. As a Maps Evaluator,

you will have the opportunity to provide ground truth for your town, city or country.

At Peroptyx, we are looking for Data Analysts who will review mapping data for digital mapping applications. Your research capabilities will validate and ensure that the navigation of certain routes are accurate and safe.

As part of this role you will verify that business names and opening hours are correct. You will check that the distance from a starting point to an end destination is listed accurately, resulting in better user experiences.

With this job you can plan your days around this highly flexible working schedule, work weekends or late evenings, all from the comfort of your own office. The flexibility of our roles minimizes the impact on your daily routine.

So, whether you are a student looking to earn as you learn, a retiree looking for a new challenge, a part-time/full time professional or a work from home parent, Peroptyx has the right role for you!
