Job Description

Applicants must have a valid working permit in Germany or European Union

Company Overview

A Japanese power transmission and conveyor belting manufacturer is looking for Application Engineer (m/f/d). They work with customers in a large number of diverse industries and with a history spanning over 130 years and 18 affiliates in 13 different countries.

Job Responsibilities

- Manage and update ISO 9001 quality documentation, procedures, work instructions, and records

- Coordinate internal, customer, and certification audits, including audit preparation and follow-up
- Track non-conformities, customer complaints, and corrective actions to ensure issues are resolved effectively
- Maintain quality records, supplier documentation, specifications, and compliance-related information
- Prepare quality KPIs, management reports, and inputs for management reviews
- Support quality training and ensure employees follow established quality procedures
- Act as the primary coordinator for ISO 9001 activities and quality-related initiatives across departments

Job Requirements

- Native level German and Business level English
- Background or experience related to mechanical components, belts or other relevant products would be a plus
- Practical experience with ISO 9001 Quality Management Systems and audits.
- Proficiency in MS Office (especially Excel and Outlook) and good English skills
- Manufacturing industry experience is preferred; supplier quality and customer complaint experience is a plus

Benefits

- 40 hours/week (flexible working hours, core time 10am – 3pm)
- 30 days holiday
- Commutation allowance or free parking lot
- 13th monthly bonus
- Free drink, snacks
