Job Responsibilities

- Installation and commissioning of food processing machinery at customer sites
- Preventive maintenance, inspection and servicing of equipment
- Troubleshooting and repair of mechanical and electrical systems

- Technical support and customer consultation both on-site and remotely
- Spare parts management and coordination
- Inventory control and order processing for spare parts
- Preparation of service reports and technical documentation
- Close cooperation with internal sales and service teams
- Regular travel throughout Germany and neighboring European countries, including the Netherlands, Belgium and Luxembourg

Job Requirements

- Completed technical training in Mechatronics, Industrial Mechanics, Electrical Engineering, Mechanical Engineering or similar
- Experience as a Service Technician, Maintenance Technician, Field Service Engineer or similar role
- Experience in troubleshooting, maintenance, repair and commissioning of industrial equipment
- Mechanical and/or electrical knowledge
- Strong customer-oriented mindset and communication skills
- Independent and structured working style
- Willingness to travel frequently
- Valid driver's license (Class B)
- Good German language skills
- English skills are advantageous

What We Offer

- Stable and long-term employment with an internationally recognized Japanese company
- Comprehensive onboarding and product training
- International working environment
- 35-hour work week
- Monday to Friday daytime schedule
- Overtime paid separately
- Holiday bonus and Christmas bonus (13th salary)
- Company vehicle for business travel
- Long-term career development opportunities
- Small and friendly local team environment
- Extensive customer contact and independent work responsibility
